PROFILE

Tech-enthusiast and first-year BTech CSE (Data Science) student with a creative mindset and a growing passion for 3D animation, video editing, and emerging technologies. Eager to apply my creativity and technical curiosity to real-world projects through internships. Passionate about learning new technologies and expanding my skill set. Actively working on personal projects using Blender and basic editing tools, with a strong willingness to gain hands-on experience through internships and real-world challenges.

WORK EXPERIENCE

PERSONAL 3D PROJECTS

Self-driven

JUNE 2025 - Present

- Created multiple 3D models and short animations using Blender.
 - Practiced modeling, texturing, lighting, and basic animation workflows.
 - Shared projects with peers and online communities for feedback.
-

EDUCATION

JSS University, 2025 - 2029
