

ABOUT ME

Motivated B.Tech Computer Science Engineering (AI & ML) student with a strong academic foundation and proven excellence as the topper of 10th, 11th, and 12th. Skilled in Python, C, SQL, Data Structures & Algorithms, and core CS subjects. Actively building real-world experience through participation in multiple hackathons including CU Hackathon, Chitkara Hackathon, SLIET Longowal Tech Fest, and being selected inside the Top 50 teams in Internal SIH multiple times. Committed to continuous learning, hands-on projects, and developing AI/ML solutions such as attendance automation and text classification. Known for discipline, consistency, problem-solving ability, and a strong drive to grow into a skilled AI/ML engineer.

WORK EXPERIENCE

BABA FARID COLLAG OF ENGINEERING AND TECHNOLOGY

Bathinda
Aug 2025 - Present

Student

I am a B.Tech student in Computer Science Engineering (AI & ML) at Baba Farid College of Engineering & Technology, passionate about solving problems through technology, AI, and real-world innovation. I actively participate in hackathons and tech events to challenge myself, learn teamwork, and turn ideas into practical solutions. 🔥 Hackathons & Tech Events I Have Attended Chandigarh University Hackathon (CU Hackathon) Chitkara University Hackathon Selected inside the Top 50 teams multiple times in the Internal Smart India Hackathon (SIH) SLIET University Longowal Tech Fest participant These experiences have helped me grow in critical thinking, collaboration, rapid prototyping, and presenting ideas effectively. 🎯 My Goal To become a skilled AI & ML Engineer capable of building impactful solutions and contributing to real-world innovation. I'm always open to connecting with students, developers, and mentors in the tech community.

EDUCATION

BHSS BATAPORA MAGAM HANDWARA KUPWARA JAMMU AND KASHMIR

Kupwara
2019

High school diploma

BHSSS Batpora Magam
2020 - 2024

Completed higher secondary education in the Science (PCM / Non-Medical) stream.

Achieved top position (Topper) in Class 10th, 11th, and 12th.

Built a strong academic foundation in Physics, Chemistry, and Mathematics, supporting my technical journey in B.Tech CSE.

Demonstrated excellence, consistency, and strong analytical ability throughout high school.

BABA FARID COLLAG OF ENGINEERING AND TECHNOLOGY

Punjab Bathinda
2025

Bachelor of Technology

Baba Farid College of Engineering & Technology, Punjab 2025 - Present Pursuing a specialization in Artificial Intelligence and Machine Learning, focusing on Python, Data Structures & Algorithms, Machine Learning fundamentals, and core CS subjects. Actively participating in hackathons and tech events, including the CU Hackathon, Chitkara Hackathon, Internal SIH (Top 50 teams multiple times), and SLIET Longowal Tech Fest. Working on hands-on projects such as AI-based attendance system, text/sentiment classification, and personal portfolio website, strengthening practical development skills. Continuously learning through online resources, YouTube playlists, and a personalized AIML roadmap to stay ahead in the field. Building strong foundations in DBMS, OOP, OS, SQL, C programming, and version control with Git/GitHub. Focused on developing problem-solving, teamwork, communication, and placement-ready skills through consistent practice and real-world exposure.
