Professional Summary

B.Com graduate with 7 months of Academic experience in full-stack web development through a full-time training program. Proficient in Python (Django), JavaScript (React), and SQL. Completed several real-world projects focused on performance optimization and user-centric design. While not yet professionally employed, I have gained strong practical knowledge and development experience through intensive training and agile methodologies.

Education

Bachelor of Commerce (B.Com)

Savitribai Phule Pune University — Expected Graduation: 2025

CGPA: 8.0 / 10

Technical Skills

Front-End :- HTML5, CSS3(TAILWIND CSS), JavaScript (ES6+), React, Bootstrap

Back-End :- Python (Django), REST APIs, MySQL ,MongoDB,Express,Node

Tools :- Git, GitHub, VS Code,

Projects

Swiggy Clone (React)

GitHub Repository: https://github.com/Abhishekhivarkar/Swiggy_clone

Vercel live link :- <https://swiggy-clone-seven-peach.vercel.app/>

Built a full front-end clone with user authentication, form validation, and cart management. Integrated REST APIs using Axios for dynamic menu and restaurant data. Implemented protected routes with React Router and optimized UI flows with React Hook Form.

Portfolio (React)

GitHub Repository: https://github.com/Abhishekhivarkar/React_portfolio

Vercel live link :- <https://react-portfolio-coral-tau.vercel.app/>

Built a fully responsive personal portfolio with advanced animations and interactive 3D scenes. Used Framer Motion for smooth page transitions and micro-interactions, React Three Fiber for real-time 3D graphics, and Tailwind CSS for a clean, scalable UI design. Focused on performance optimization despite heavy animation workloads.

Real time chat App (React + Socket.io)

GitHub Repository: https://github.com/Abhishekhivarkar/Chat_app-react-

Vercel live link :- <https://chat-app-react-blond.vercel.app/>

Developed a real-time messaging app with event-driven communication using Socket.io. Implemented user presence, message delivery, and responsive chat UI. Focused on clean component structure and reliable bi-directional data updates.

Certifications

- IBM Certificate in HTML, MySQL, and Python
