PROFESSIONAL SUMMARY

Multi-skilled Software Development Engineer with hands-on experience in full-stack application development using Java, PostgreSQL, and REST API development.Strong foundation in **object-oriented programming, database optimization, and technologies like HTML, CSS, JavaScript, React.js, Next.js, Node.js, Python, and ML workflows.** Proficient in writing clean, maintainable code, deploying services, and collaborating in fast-paced development environments. Seeking an opportunity at Your Organization to apply **problem-solving skills, scalable system design, and collaborative development practices** to deliver high-impact client solutions.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C, C++, Java
Frontend: React, Next.js, HTML5, CSS3, Tailwind
Backend: Node.js, Express.js, Django Basics, REST APIs
Databases: MongoDB, PostgreSQL, MySQL
AI/ML & Data: NLP, Recommendation Systems, OpenCV, Scikit-Learn, TensorFlow, Pandas
Core CS: Data Structures & Algorithms, OOP, System Design, DBMS
Tools: Git, GitHub, VS Code, Figma
Behavioral Skills: Leadership, Communication, Ownership, Problem Solving, User Empathy, Team Collaboration,Accountability

EDUCATION

Hindustan Campus – Sharda Group B.Tech in Computer Science and Engineering (65%)	2022 – 2026 Mathura, Uttar Pradesh
Symbiozya School – CBSE Intermediate (Class 12) (65%)	2021 – 2022 Agra, Uttar Pradesh
Symbiozya School – CBSE High School (Class 10) (73%)	2019 – 2020 Agra, Uttar Pradesh

EXPERIENCE

Product Management Intern Bigul (Bonanza Portfolio Ltd.) <i>Fintech & Algo Trading Platform – 400,000+ users</i>	Nov 2025 Mumbai, India
- Delivered 25+ PRDs with detailed workflows, KPIs, business logic, acceptance rules, and API notes for engineering teams. - Supported delivery of 12+ product features across onboarding, discovery, analytics, and trading journeys, contributing to funnel progression and usability improvements. - Conducted competitive and market assessments across National platforms (Groww, Zerodha, Upstox, Dhan) and International Platforms (Robinhood, Interactive Brokers, Charles Schwab) to identify product gaps, workflow friction points, and opportunity areas for new features. - Proposed enhancements increasing activation by 30% and feature adoption by 2x–3x. - Collaborated with engineering and design teams on requirements, testing, and releases.	

PROJECTS

BorrowMe – Peer-to-Peer Item Borrowing Platform <i>React, Node.js, Express.js, MongoDB, REST APIs, Geolocation</i>
- Architected and delivered a full-stack peer-to-peer sharing platform enabling localized lending and borrowing of items, simulating a real-world sharing-economy use case. - Designed secure JWT-based authentication and role-based authorization, safeguarding user identities, item listings, and transaction workflows. - Integrated geolocation services to surface nearby items using privacy-preserving approximate location mapping, improving local discoverability. - Engineered RESTful APIs for users, items, bookings, reviews, and availability, leveraging optimized MongoDB schemas for scalability and performance.
Full-Stack E-Commerce Platform <i>React, Node.js, MongoDB</i>
- Developed a scalable e-commerce application featuring user authentication, product catalog, cart management, and order processing. - Reduced page load time by 40%, achieved 99.9% uptime, and handled 10,000+ requests per minute. - Built responsive UI components to deliver cross-device compatibility and improved user experience.
Face Recognition Attendance System <i>Python, OpenCV</i>
- Designed and implemented an automated face recognition-based attendance system, eliminating manual attendance processes. - Achieved 92% recognition accuracy with sub-10-second processing time, ensuring real-time usability. - Applied computer vision techniques for face detection, feature extraction, and recognition under varying lighting conditions.

CERTIFICATIONS

Naukri Campus Young Turks– Certificate of Merit for scoring 96.19 percentile	: (Link)
Completed all 19+ AI track certifications from Infosys Springboard	: (Link)
Certificate of Merit in Data Structures Using Programming with C By RPCL India	: (Link)

OTHER LANGUAGES AND INTERESTS

Languages Known: English (Fluent), Hindi (Fluent)
Interests: Cloud Computing, UI/UX Design, Competitive Programming, Data Structures And Algorithms
