Career Summary

Detail-oriented Software Engineering student skilled in SQL and front-end development with Bootstrap. Thrive under pressure, adapt quickly to challenges, and work effectively both independently and in team settings. Passionate about learning new technologies and building efficient, reliable solutions.

Education

Bachelor of Technology (Btech) Vellore Institute of Technology, Vellore	2028
CBSE Board (Class 12) Seth Anandram Jaipuria School 96.5%	2024
CBSE Board (Class 10) Seth Anandram Jaipuria School 90%	2022

Internships

Future Interns | [January 2026– February 2026]

- Used Python and Pandas together with SQL to handle datasets which allowed them to find useful information through their analysis work.
- Processed structured datasets through data cleaning and transformation operations while conducting exploratory data analysis (EDA) to analyze their data.
- Created queries and scripts which allowed them to handle data operations through efficient data management.
- Used analytical skills together with problem-solving skills to finish real-world assignments which involved task-based work.
- Completed assigned tasks by delivering correct results on time while using feedback to enhance their solutions.

Projects and Social Links

• T-Stellar Website | Vercel Deployment

- Built and deployed a responsive web app with seamless cloud hosting on Vercel
- Implemented fast builds, automatic deployments, and optimized performance
- Live demo: <https://t-stellar-website.vercel.app>

• Arduino Smoke Detection System

- Designed a sensor-based fire/smoke detection device using Arduino
- Integrated Wi-Fi hotspot for independent wireless connectivity and alerts
- Enabled real-time monitoring without external infrastructure

• Technical Blogging & Freelance Writing

- Publish technical and non-technical articles on Medium and personal blog
- Deliver freelance content for clients across multiple platforms
- Focus on research-driven writing, clarity, and audience engagement

• Design & Media Projects

- Designed posters, social media creatives, and visual assets using Figma
- Edited short videos and promotional content for digital platforms
- Applied clean design principles and visual storytelling to enhance engagement

Languages

English	Proficient
Hindi	Proficient
Bengali	Proficient
German	Fluent

Certifications

• SQL Analytics & BI on Databricks – SimpliLearn

Data querying, cleaning, transformation, and dashboard-driven insights; applied learning through practical Kaggle dataset.

- **JavaScript & Web Development – SimpliLearn**

Front-end development using JavaScript, HTML, and CSS to create responsive and dynamic websites

Skills

- Proficient in C, C++, Python, and Java
- Strong in Data Structures, Algorithms, and problem-solving
- Web development: HTML, CSS, JavaScript, Bootstrap
- SQL and Jupyter Notebook for data analysis
- UI/UX design using Figma and CanvaA
- Technical and non-technical content writing
- Effective team management and leadership abilities
- Strong communication and collaboration skills
- Able to work efficiently under pressure and meet deadlines
