About Me

Currently pursuing B. Tech in Computer Science (Final Year), with strong base in python and DSA and an interest in Machine Learning and Artificial Intelligence. Eager to obtain a challenging job in an innovative organization where I can use my technical and analytical skills. Strong team player to collaborate and work with anyone to deliver reliable, efficient, and high-quality output.

Skills & abilities

Language: Hindi (Mother Tongue), English(Fluent), German(B1 level)

Programming Language: Python, C, C++

Web Technologies: HTML

Others: MS Office, SQL, Data Structure & Algorithm, ML

Soft Skill: Problem solving and Analytical skills, Team player, Adaptability

Project

Face Detection and Recognition Student Attendance System

Building an automated class attendance system using face detection algorithms. The system will utilize video capture to detect faces and mark attendance.

Using **OpenCV** – for image processing and detection. Using **Dlib's Model** to compare detected faces.

Research Paper

A retrospective method of detection of cyberbullying using machine learning algorithms

This involves analysing past digital communications to identify patterns and behaviours indicative of bullying. As it affects mental health and online Safety

By training models.

* Naïve Bayes

* Logistic Regression.

* Support Vector Machine (SVM)

Certificates

Python with DSA + ML from Ducat(New Delhi)

24 Hour Hackathon (Prompt X)

Education

Jigyasa University, Dehradun

2022-2026

Bachelor of technology, Computer Science engineering | 7.9 CGPA

Ramjas School, RK Puram, New Delhi

2019

10+2 | 75% | CBSE Board
