

AYUSH KUMAR DUBEY

+91 7048986892 | ayushdby902@gmail.com | LinkedIn | GitHub | Leetcode

TECHNICAL SKILLS

Languages	: Java, Python, JavaScript, Html, TailWind Css
CS Fundamentals	: Operating System, DBMS, DAA, DSA
Technologies/Frameworks	: Spring, Microservices ,react(vite)
Developer Tools	: Postman, Git, MongoDB, Docker
Soft Skills	: Team Leadership , Cross-Functional Collaboration , Communication

PROJECT WORK

- ① **PlacementEase**(Easy platform to connect user and HR) GitHub
 - Built scalable backend services using Spring Boot and Java.
 - Designed and implemented RESTful APIs for frontend and AI module integration.
 - Integrated MySQL database using Spring Data JPA (Hibernate) for efficient data management.
- ② **AI Text-to-Image Converter** GitHub
 - Built a full-stack application enabling generation of images from textual descriptions using a pre-trained transformer/ diffusion model.
 - Utilized REST API endpoints to handle prompt processing and image generation workflows
- ③ **ML model** - For the detection of microplastics in Water GitHub
 - Developed a deep learning-based microplastics detection system using Python and PyTorch.
 - Implemented model inference pipeline for loading trained .pth model and generating predictions.
 - Built data preprocessing and CSV dataset generation scripts for structured input handling.
 - Designed modular scripts (main.py, inference.py) for efficient model testing and deployment.
 - Applied AI techniques to solve a real-world environmental monitoring problem.

EDUCATION

Nehru International Public School , Noida

Class X (83.4%)	2020-2021
Class XII (91.2%)	2022-2023

Ajay Kumar Garg Engineering College

B.Tech (Computer Science & Information Technology)	2023 – 2027
Current Grade: 7.86	

CERTIFICATES

- 1) IBMCEP – Generative AI Virtual Internship (6 Weeks)
Completed **PBELGEN1IN** course via **IBM** Developer Skills Network, gaining hands-on experience in Generative AI concepts and practical applications (August 2025).
- 2) Successfully completed industry-oriented Python training from YBI Foundation with practical coding assignments and mini-projects.

WORK EXPERIENCE

- 1) IBMCEP Generative AI Virtual Intern (Aug 2025)
Developed a Text-to-Image Converter using Generative AI, applied prompt engineering techniques, explored model integration, and built a functional prototype as part of a 6-week internship.
- 2) Currently working as a backend developer intern at **Graphura pvt ltd.** Develop a full stack project(ATS checker), created backend APIs and connected Gemini API to generate the score.

ACHIEVEMENTS

- 1) Secured three medals in running & sprinting events, demonstrating strong athletic discipline and competitive performance. Awarded the School Topper Trophy for outstanding academic excellence.
- 2) Got an opportunity to be the Team Head at Graphura, i had show my team leadership skills to complete the task before deadline.
