CAREER PROFILE

I am an aspiring backend developer passionate about building scalable and reliable server-side applications. I specialize in Node.js, Express, and SQL-based databases, and I'm continuously learning to integrate AI and data-driven systems into backend architectures. My goal is to contribute to impactful software solutions, grow through real-world development experience, and deliver optimized backend systems that support seamless user experiences.

SKILLS

Technical Skills: JavaScript, Node.js, TypeScript

Databases: MySQL, PostgreSQL

Tools: Git, RESTful APIs

Soft Skills: Communication, Collaboration, Problem Solving, Analytical Thinking, Leadership

PERSONAL INFORMATION

Languages Spoken: English, Nepali

Hobbies / Interests: Coding, Volunteering, Reading Tech Articles, Leadership Activities

Driver's License: Yes

Computer Literacy: Proficient

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)

Soch College of IT, Pokhara, Nepal | Jan 2023 – Present

- Actively developing backend and full-stack web applications as part of coursework and projects.
- Coursework: Database Management Systems, Web Technologies, Object-Oriented Programming.
- **Leadership Role:** President, CSIT Association of Nepal (Pokhara Chapter).

PROJECTS

EventSphere – Virtual Event Management Platform | MERN Stack, PostgreSQL

- Built a scalable virtual event management system enabling event creation, deletion, attendee tracking, and ticketing.
- Designed role-based dashboards (Attendee, Organizer, Admin) with authentication and authorization.
- Integrated online ticketing and analytics features.

■ github.com/bimalgautam1/Event-Sphere

E-commerce Website | MERN Stack, RESTful API, PostgreSQL

- Developed a full-stack e-commerce platform supporting product browsing, cart management, and secure checkout.
- Implemented user authentication, product CRUD operations, and order history tracking.
- Integrated RESTful APIs and designed a responsive UI using React and Tailwind CSS.
