PROJECTS

Store Rating Web App

React, Express, PostgreSQL, Sequelize, JWT

GitHub

- Built a full-stack web application that allows users to browse and rate stores with comments and analytics.
- Implemented Role-Based Access Control (User / Owner / Admin) for CRUD operations on stores, ratings, and user management.
- Created dashboards with analytics (e.g. average ratings, totals) tailored to each role.
- Secured APIs using JWT authentication and Express middleware.
- Styled a modern, responsive UI using React with glassmorphism design principles.

Gesture Recognition Web App

Flask, Python, OpenCV, MediaPipe

- Developed a real-time gesture recognition app using Flask and MediaPipe.
- Tracked gestures like Thumbs Up and Down using OpenCV.
- Displayed real-time feedback via a responsive web interface.

Coffee Machine Simulation

Python

- Simulates coffee selection, tracks inventory, and processes coins.
- Calculates total payment, provides change, and manages resources.

Mini Games Collection

Python

- **BlackJack** – Simulated a classic casino card game using random number logic and scoring rules.
- **Hangman** – Implemented a word-guessing game with letter input, attempt tracking, and ASCII visuals.
- **Caesar Cipher** – Developed an encryption-decryption tool demonstrating shift-based ciphers.
- **Q&A Quiz Game** – Built a trivia quiz app with scoring, user interaction, and question handling.
- Each game focused on clean structure, input validation, and error handling.

EDUCATION

Ajeenkya D Y Patil University

B.Tech in Computer Science Engineering

Pune, Maharashtra

2022 – 2026

Kendriya Vidyalaya

Higher Secondary Schooling

Chennai / Pune / Gurugram

Till 2021

TECHNICAL SKILLS

Python

HTML / CSS / JavaScript

Flask / Django

MediaPipe / OpenCV / Streamlit / Tkinter

NumPy / Pandas / Matplotlib

Git / GitHub / Anaconda / VS Code

MISCELLANEOUS

- Quick learner with a focus on practical, project-based learning.
- Open to internship/full-time roles in Python development or web applications.
