SUMMARY

Detail-oriented Computer Science student with a strong background in data analysis and full-stack development. Proficient in Python and C++, with hands-on experience in predictive modeling, data visualization, and machine learning. Skilled in developing data-driven solutions and dashboards (Tableau, Power BI) and building full-stack applications (MERN). Experienced with Linux systems and cloud computing (AWS) and familiar with container orchestration (Docker, OpenShift). Proven ability to apply analytical and software engineering skills in projects and internships.

EDUCATION

Avantika University

B tech

Computer Science Engineering

July 2022 - April 2026

Jawahar Navodaya Vidhyalaya

July 2014 - April 2021

10th CBSE Board - 89% (2018-19)

12th CBSE Board - 93.4% (2020-21)

SKILLS

- Data Analysis: Python (Pandas, NumPy), SQL, Excel
- Visualization: Tableau, Power BI, Matplotlib, Seaborn
- Machine Learning: Scikit-learn, predictive modeling, clustering
- Other Tools: MERN, AWS.
- Soft Skills: Analytical problem-solving, communication, teamwork

CERTIFICATIONS

- Google Cloud Data Analytics Certification
- Advanced Statistics for Machine learning by Infosys
- Data Science with Python by infosys
- Data Analytics Essential by cisco
- Under top 15 performer at national level hackathon, Ddn.

PROJECTS

Walmart Sales Data Analysis

- Cleaned and preprocessed large retail datasets to ensure accuracy and consistency.
- Designed interactive Tableau dashboards for sales performance by region, category, and time.
- Built a churn prediction model using Random Forest, improving customer retention targeting.
- Applied DBSCAN clustering for geospatial demand analysis, identifying high-demand zones.

Electric Vehicle Usage Forecasting

- Developed predictive models to forecast EV adoption trends using Python (Pandas, scikit-learn).
- Conducted exploratory data analysis to uncover key usage drivers.
- Provided insights to assist stakeholders in strategic planning.

Blood Bank Management System

- Built a full-stack blood bank system using MERN with features like API integration, middleware, program management and inventory management.
- Implemented data handling workflows and analytics for hospital and admin users.

Internship

Intern at National Human Rights Commission (NHRC)

- Jan 2025 - Feb 2025
- Enhancing team productivity and project outcomes, and won the competition with first prize of Rs 15,000.

Intern at UptoSkills as a mern developer and working on hrms project.

- April 2025 - July 2025
