- **Technical Skills:**
HTML, CSS, Javascript

Projects / Case Study

TrackIt – Vehicle Tracking UX Case Study | [Link](#) March 2025 - May 2025

- Designed a mobile solution to address vehicle theft and real-time location tracking.
- Conducted user interviews and created empathy maps, user journey maps, and personas.
- Audited competitor tracking apps to identify UX gaps and improve usability.
- Built a high-fidelity Figma prototype with features like alert notifications and geo-tracking.
- Focused on security, simplicity, and user trust through intuitive design pattern.

JourneyUp – Investor Connect Platform for Entrepreneurs | [Link](#) May 2025 - June 2025

- Designed an innovative app for early-stage entrepreneurs to pitch ideas via short video presentations (under 5 minutes).
- Developed end-to-end UX flow to allow users to upload, browse, like, and comment on startup pitch videos.
- Created a trending system based on user engagement to boost visibility of top-performing pitches.
- Ensured smooth onboarding and presentation-upload experience with minimal UI friction.
- Enabled investors to discover and directly connect with high-potential startups from the app interface.

Certification

Foundations of User Experience (UX) Design | [Certificate](#)

- Gained a strong understanding of UX principles, including user-centered design, usability, and interaction design fundamentals.
- Learned to conduct user research, create personas, and define user journeys to enhance product strategy.

Build Dynamic User Interfaces (UI) for Websites | [Certificate](#)

- Developed responsive and visually engaging web interfaces using best practices in layout, typography, and accessibility.
- Applied dynamic UI design techniques to create interactive web experiences aligned with user needs.

Create High Fidelity Designs and Prototypes In Figma | [Certificate](#)

Mastered Figma to design high-fidelity UI mockups and interactive prototypes for web and mobile applications.
Collaborated using Figma's components, design systems, and prototyping features to simulate real-world user flows.

Education

Devi Ahilya Vishwavidyalaya (DAVV) August 2022 - May 2025
Bachelor of Computer Application
Grade : **8.08 Cgpa**
