Objective:

I'm a Master's student in Computer Science with a growing interest in software development and cloud computing. I'm currently improving my knowledge in Java, databases, networking, and operating systems, and I'm eager to apply what I've learned so far in practical, real-world environments. I'm looking for an opportunity that offers hands-on experience, meaningful project work, and a chance to strengthen both my technical and communication skills. My long-term goal is to become a dependable, well-rounded technology professional through consistent learning and real-world exposure.
