### Professional Summary

Data Analyst with expertise in SQL, Power BI, Python, and Machine Learning. Experienced in data extraction, visualization, and predictive modeling. Passionate about leveraging data-driven insights to optimize business decisions. Strong problem-solving skills and hands-on experience in database management, data automation, and dashboard creation.

### Work Experience

#### Data Analyst Intern

**Digital Ipsum Pvt Ltd** | January 2, 2025 – February 27, 2025

- Collected and cleaned data using **Instant Data Scraper, Web Scraper, BeautifulSoup, Requests, Selenium, and Excel (VLOOKUP, filters, data validation)**.
- Built interactive **Power BI dashboards** using **Power Query, DAX measures, charts, slicers, and icons** for **website, SEO, and SMO analysis**.
- Delivered comprehensive reports with **lead generation insights, business recommendations, and project limitations**.

### Skills

#### Technical Skills

- ✓ **SQL (MySQL):** Data Extraction, Joins, Subqueries, Data Manipulation, Aggregations
- ✓ **Advanced Excel:** VLOOKUP, INDEX-MATCH, Pivot Tables, Data Validation, Conditional Formatting, Filters
- ✓ **Power BI:** Power Query, DAX Measures, Interactive Dashboards, Data Visualization, Report Publishing
- ✓ **Python:** Pandas, NumPy, Matplotlib, Scikit-learn, Web Scraping (BeautifulSoup, Selenium, Requests)
- ✓ **Machine Learning:** Regression, Classification, Model Evaluation
- ✓ **Automation Tools:** Instant Data Scraper, Web Scraper

#### Soft Skills

- ✓ Problem-Solving & Analytical Thinking
- ✓ Data Interpretation & Decision-Making
- ✓ Communication & Presentation Skills

## Education

### B.E. in Electronics & Telecommunication

Aditya Engineering College | **Graduation Year: October 2021**

**CGPA: 7.36**

## Certifications

- **Master in Data Science and Data Analytics with AI** – It Vedant Pvt. Ltd.
- **Data Analytics with Python** – IBM

## Projects

### Airline Database Management System

- Developed an **Airline Database Management System** using **MySQL** to manage flight schedules, bookings, and customer data.
- Designed a **normalized database schema** and implemented **advanced SQL queries** for booking management and flight searches.
- Optimized performance using **indexing techniques** to enhance query efficiency.

### Laptop Price Predictor

- Built a **Laptop Price Prediction Model** using machine learning algorithms (**Linear Regression, Random Forest Regression**) to estimate laptop prices based on specifications.
- Analyzed and visualized insights to understand the impact of various features on pricing.

### Skalent India Database Dashboard – Power BI

- Developed a **comprehensive Power BI Dashboard** for Skalent India to track business data and **visualize key performance indicators (KPIs), trends, and operational metrics**.
- Integrated multiple data sources, cleaned and structured data, and built **interactive dashboards for decision-making**.
- Designed **custom visuals and reports** to optimize **business performance analysis**.

## Additional Information

- Available for **immediate joining**
- Willing to **relocate**
- Open to **remote work opportunities**
