

Pallavi Vishwas Patil

Ph.: 9356862288 Email: pallavi.patil1@adypu.edu.in, pallavipatil5304@gmail.com

Location: Pune, India

Brief Summary:

Motivated and enthusiastic computer science undergraduate with a passion for turning ideas into code. Specializing in software engineering with hands-on experience from virtual internships. Excited by web development, AI, and embedded system ready to build, learn, and innovate in tech. As I step into the tech world, I'm eager to contribute to meaningful projects, grow with a dynamic team, and help shape the future through technology.

Education:

Institution	Course
Ajeenkya D Y Patil University (2022 – 2026)	B.Tech in Computer Science Engineering (Software Engineering) – CGPA (up to 6 th sem): 7.39
Dnyandeep English Medium School & Junior College, Sangli	12 th standard SSC - 77.83%
Smt. R N Patil Girls High School & Jr. College, Sangli	10 th standard SSC – 92.4%

Skills:

Technical	Life Skills
• Programming: Java, Python, C, C++ • Web: HTML, CSS, JavaScript • Tools: Git, GitHub, VS Code, Android Studio, Google Colab, Jupyter Notebook • Operating Systems: Windows, Linux • Database: MySQL • Customer Interaction Management	• Self-Directed • Avid time keeper • Multitasking • Adaptability • Ownership • Keen learner • Creative Thinker

Languages:

- English - Proficient in speaking and writing
- Hindi – Proficient in speaking and writing
- Marathi – Proficient in speaking and writing

Projects:

1. **Student Management System | Java (Console-based)**
Developed a console-based application to manage student records with features like add, update, and view details using OOP concepts and collections.
 2. **Library Database System | MySQL**
Designed and implemented a relational database for managing books, members, and borrow records; performed queries for data retrieval, aggregation, and reporting.
 3. **Cozy Cafe Website | HTML, CSS, JavaScript**
Built a responsive multi-page café website featuring menu display, contact form, and animations using JavaScript and CSS styling.
 4. **Smart Campus Portal | Python, HTML, CSS**
Developed a complete multi-page college portal website using Python's built-in HTTP server. Designed sections for Home, About, Courses, Students, and Contact to demonstrate full-stack web development and user-interface design skills without external frameworks.
-

Internships & Certifications:

1. Google AI-ML Virtual Internship (AICTE-EduSkills): Focused on building foundational ML models using TensorFlow and deploying them with Google Cloud.
Key areas focussed: Machine Learning, Neural Networks, GCP, Tensor Flow.
 2. Microchip Embedded System Developer Virtual Internship (AICTE-EduSkills): Project based training in embedded system and microcontroller coding.
Key areas focussed: Embedded C, MPLAB X IDE, and Microcontroller Programming.
 3. Mobile Application Development: Developed a mobile module to allow students to view, add, and manage their class schedules with an intuitive weekly/daily layout.
Key areas focussed: Mobile UI Design, State Management, Local Storage, Form Handling, Date-Time Logic, Responsive Design, Flutter/React Native
-

Hobbies:

- Exploring new technologies
 - Painting and clay art
 - Pet enthusiast
-

Conclusion:

With a strong academic foundation and a passion for technology, I am eager to contribute to innovative projects and grow alongside experienced professionals. I bring a curious mind, a collaborative spirit, and a commitment to continuous learning—ready to turn ideas into impactful solutions in the ever-evolving world of tech.
