PROFESSIONAL SUMMARY

Enthusiastic BCA student with a strong interest in web development. Familiar with HTML, CSS, JavaScript, and MERN stack technologies. Always eager to learn, build, and improve through practice and self-learning. Looking for an opportunity to gain real-world experience and grow as a developer.

SKILLS

Languages & Tools: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Tailwind CSS.

Other Tools: Adobe Photoshop (Basic), Chatgpt, Lovable, Notion, Claude, Netlify, Vercel, Render.

Soft Skills: Teamwork, Time Management, Adaptability.

PROJECTS

Weather Application

Tech Stack: React, CSS, OpenWeather Api

A sleek weather forecast app that fetches real-time data based on the city name. Users can check temperature, humidity, and weather conditions with a simple interface.
