EDUCATION

Avantika University , Ujjain

Computer Science and Engineering

7.01

August 2022 - June2026

Bachelor of Technology (B.Tech)

PROJECTS

GYM Management System (Web App)

- Comprehensive platform for gym operations Features included member tracking, payments, scheduling
- Built using Node.js & Express.js (backend) with React.js (frontend) for UI
- Through strategic technology integration and innovative features, we aim to optimize operations, enhance member satisfaction, and ensure the financial stability of fitness centers

Attendance Management System (Attendify)

- Designed and developed a web-based attendance management system to manage and monitor attendance of employees, members, or students across sectors.
- Built using PHP, MySQL, HTML, CSS, and JavaScript with integration for desktop and web applications.
- Focused on scalability, multi-sector usability, and user-friendly interface.
