PROFILE

A highly motivated and academically strong student with a passion for learning and applying technical concepts. One month of experience as a Python Developer at CodSoft, working on projects like a password generator, a simple calculator, and a rock-paper-scissors game using Python. Skilled in problem-solving and logical thinking, with hands-on experience in Python programming. Additionally, actively involved in managing college events, demonstrating leadership, teamwork, and organizational skills. Earned a letter of recommendation as an Internshala Student Partner. Always eager to take on challenges, contribute to innovative projects, and expand technical expertise.
