Profile

"I am at the beginning of my professional journey and actively building my skills through academics, projects, and self-learning. My focus is on developing strong expertise in Data Analytics area, I am eager to contribute, learn from real-world experiences, and grow into a role where I can add value while achieving my career goals."..

Project

1. IRIS FLOWER CLASSIFICATION

SEP 2025

- . Load and explore the Iris dataset using visualization to understand feature relationships.
- . Split the dataset, then train a K-Nearest Neighbors (KNN) classifier model.
- . Evaluate performance with accuracy, confusion matrix, and classification report.

2. MOVIE RECOMMENDATION SYSTEM (CONTENT-BASED)

AUG 2025

- . **Text to Numbers** – Convert movie content (plot, genres, keywords) into numerical scores using TF-IDF.
- . **Similarity Check** – Use **Cosine Similarity** to compare movies based on these scores.
- . **Recommendations** – Present the top-scoring, most similar movies as suggestions.

Education

B.TECH. | PURSUING IN ARTIFICIAL INTELLIGENCE | JD COLLEGE OF ENGINEERING & MAG

HSC | 2022 | DEFENCE SERVICES JR. COLLEGE(BHANDRA)

SSC | 2020 | PRABHODHANKAR KAR THAKRE HIGHER ENGLISH MEDIUM SCHOOL

Technical Skills

- Microsoft Excel
- Basic of Python
- Basic of SQL
- Power BI
- Tableau

Certification

Spark-IIT Internship of Data Analytics powered by Wipro DICE ID.

Soft skill Development - NPTEL

DECLARATION

.It is here by declare that the above information is completely correct as per my knowledge.
