- Tools and Platforms
- Soft Skills

LANGUAGES

- English: Fluent
- Hindi: Fluent

PROFILE SUMMARY

Passionate about artificial intelligence and machine learning, with hands-on experience in Python and real-world projects ranging from intelligent chatbots to automated text summarizers. As the lead of my university's Coding Club, I've spearheaded hackathons, mentored budding developers, and cultivated a vibrant culture of innovation and collaboration. Recognized for crafting creative, student centric solutions that merge technical rigor with user empathy.

EXPERIENCE

Jigyasa University

AI/ML-Based Learning Ecosystem for Students (Project)

- Developed a modular, Python-based system integrating intelligent tools to enhance student productivity and personalize learning.
- Text Summarizer: Condenses academic content into digestible summaries for focused learning
- Flashcard Generator: Transforms study material into interactive flashcards for quick revision
- AI Chatbot: Provides real-time academic support using contextual NLP and database integration
- Planned Modules: MCQ Generator, Topic Finder, Multi-format Document Support (PDF, DOCX, TXT)
- Envisioned as a scalable, student-centric workspace combining AI tutors, productivity tools, and adaptive learning paths.

Jigyasa University

Head of Coding Club - (Arambh)

- Led initiatives to foster a vibrant tech culture through events, mentorship, and collaboration.
- Organized hackathons, coding contests, and technical workshops
- Conducted sessions on Python, web development, and AI/ML fundamentals
- Partnered with faculty and industry experts to deliver practical insights
- Demonstrated strong leadership, technical passion, and a commitment to community building.

Achievements and certifications

Jigyasa University, Dehradun

- AI/ML Workshop Certification
- Python Certification
- Multiple National level Hackathon Certification
