Skills

- **Technical Proficiency:** MS Word, MS Excel, MS PowerPoint
- **Soft Skills:** Teamwork, Adaptability, Leadership, Effective Communication & Strong Work Ethics

Projects

Sales Performance Analysis

- Cleaned and structured raw sales data to ensure consistency and reliability for analysis.
- Built an interactive dashboard with pivot tables, charts, and slicers to visualize product, region, and time-based sales trends.
- Identified key insights on revenue growth and performance patterns, providing data-driven recommendations for business improvement.

India's Semiconductor Ecosystem: A Case for Strategic Growth

- Analyzed India's 90% import dependency in semiconductors amid global tech shifts in AI, EVs, and renewable energy.
- Identified systemic challenges: skill gaps, weak R&D, infrastructure deficits, and geographic constraints. Also explored Ladakh as an unconventional fab location.
- Suggested actionable solutions: R&D investments, foster global partnerships, and incentivize FDI through targeted subsidies.

Certified Courses

Digital Marketing

- **Concepts:** SEO, social media, email, and ethical marketing fundamentals.

Roles and Responsibilities

- **Class Representative:** Facilitated communication between students and faculty, coordinated academic activities, and demonstrated leadership, teamwork, and effective communication skills.
- Took the lead in organizing the Tree Planting Drive on World Environment Day, encouraging student participation and fostering environmental consciousness.
