Education

National Institute of Technology, Jamshedpur

Masters of Computer Application

2024 - 2027

9.25/10 CGPA

Patkar Varde College , Mumbai

Bachelors of Computer Science

2020 - 2023

9.7/10 CGPA

Technical Skills

Languages: Python, Java, C++, JavaScript

Backend: Node.js, Express.js

Frontend: React, TailwindCSS, HTML, CSS

Databases: MySQL, MongoDB

Developer Tools: Postman, VS Code, GitHub

Libraries: Pandas, Numpy, OpenCV, Ultralytics

Projects

Twizzle

Twizzle

- Developed Twizzle, a social media web application that allows users to log in, create, and share tweets, as well as view tweets from people they follow. Implemented features for following/unfollowing users and viewing user profiles. Built a responsive **frontend using React.js and Redux, and designed a robust backend with Express.js and MongoDB** for efficient data handling and scalability.

IntelliPlay: A Customized Music Player

IntelliPlay

- This Python project is a voice-controlled AI assistant primarily designed to search, play, and manage YouTube music. It uses speech recognition for commands, PyAutoGUI and Pynput to control the browser and system, and **Levenshtein distance** to track similar songs in a MySQL database. **Users can request specific songs, play random songs, display their music list, and stop playback, all hands-free.** The assistant also maintains a personalized song history, ensuring an intelligent and seamless music experience.

MalikPetShop

MalikPetShop

- Currently developing a Pet Shop web application that will allow users to browse and purchase pet-related products across categories like cats, dogs, birds, and more. The project includes an admin dashboard for managing products with details such as brand, flavor, and diet type. Building a responsive frontend using React.js and integrating it with a Node.js (Express) and MongoDB backend. Focused on creating a scalable architecture and smooth user experience throughout the development process.

Experience

Training & Internship Coordinator

August 2025 – present

Batch of 2024

NIT JSR

- Manage and coordinate student training programs and internship opportunities, ensuring smooth execution and effective industry collaboration.

Conducted two codeforces Contest

June 2025

- Successfully conducted two Codeforces programming contests for the class. Achieved participation from around half of the students, ensuring competitive engagement. Managed contest setup, problem selection, and real-time monitoring, promoting practical coding skills.

Algorithmic Competitions/Achievements

- Solved total **300+** DSA problems on 3 platforms, which are **Leetcode, GFG and Codeforces**, enhancing problem-solving skills.
- Current rating on Codeforces is 973 (Max. 1040)
- Secured **Rank 1** in the AI/ML competition organized by our college society (SCSE)
