Pune, Maharashtra

PROFESSIONAL SUMMARY

Computer Science Engineering student with practical experience in Python, Django, React, and JavaScript. Passionate about developing web applications and eager to contribute technical expertise in an internship role, delivering impactful solutions while collaborating in dynamic team environments.

EDUCATION

Ajeenkya DY Patil University

Bachelor of Technology in Computer Science Engineering

CGPA: 9.30/10

Aug 2022 – May 2026

Nowrosjee Wadia College

Higher Secondary Education

Percentage: 66%

June 2020 – March 2022

St. Francis De Sales School

Secondary Education

Percentage: 86.80%

June 2007 – April 2020

TECHNICAL SKILLS

- **Languages:** JavaScript, HTML, CSS, Python, Java, SQL
- **Frameworks:** React, Django, REST APIs
- **Database:** MySQL
- **Developer Tools:** Git, GitHub, VS Code, Postman

PROJECTS

MovieHub [[Live Demo](#)] | React, JavaScript, REST APIs

May 2025 - Jun 2025

- Built a responsive movie listing web application with dynamic data fetched from the TMDb API.
- Implemented a search feature to filter movies by title upon user input submission.
- Designed a two-page layout: one to browse movies and another to view user-selected favorites.
- Used React Router for navigation and localStorage for persisting favorite selections across sessions.

NGO Webapp | Python, Django, HTML, CSS

Nov 2024 – Dec 2024

- Developed an automated reporting system that captures user location (longitude and latitude) and forwards incident reports to the nearest NGO for rapid response.
- Integrated Django's email framework to automatically dispatch images and report details, improving communication and operational efficiency for NGOs.
- Designed and implemented a fully responsive user interface with a robust Django-based backend architecture, ensuring seamless user experience, and efficient coordination between users and NGOs.

Architecture Firm Website [[Live Demo](#)] | Python, Django, HTML, CSS, JavaScript

Jan 2025 - Feb 2025

- Developed and deployed a dynamic website with sections like Home, About, Services, Projects, Team, Testimonials, Contact, Book Appointment, and Timeline.
- Integrated an AI-powered chatbot to answer queries based on selected services.
- Utilized Django for robust backend management, ensuring efficient data handling and seamless performance.

EXTRACURRICULAR ACTIVITIES

• Table Tennis Event Lead:

Led a 10-member team for an inter-college table tennis competition with 100+ participants, managing logistics, rulebook creation, and execution.

• Volunteer, Dance & Sports Events:

Assisted in executing cultural and sports events with 200+ attendees by handling setup, participant coordination, and managing on-site operations.

RELEVANT COURSEWORK

Software Engineering, DBMS, Operating Systems, Data Structure & Algorithms, Web Development, Computer Networks.
