EDUCATION

J D College of Engineering and Management

Bachelor of Technology in Information Technology — CGPA: 7.2/10

Nov. 2022 - Present

Nagpur, Maharashtra

Rashtriya Junior College of Science

Higher Secondary Certificate (HSC) — Percentage: 81.33%

Jun. 2020 – May 2022

Achalpur, Maharashtra

OBJECTIVE

- Motivated Information Technology student with strong problem-solving skills and hands-on experience in full-stack development (MERN stack). Proficient in building scalable web applications, writing clean and maintainable code, and leveraging modern tools and frameworks. Eager to contribute to innovative software engineering projects, learn from industry professionals, and grow into a skilled Software Engineer

SKILLS

Languages: C++, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, GitHub, Visual Studio, IntelliJ IDEA

Technologies/Frameworks: React.js, Node.js, Express.js, MongoDB, REST APIs, AWS (Basics)

PROJECTS

Academix | React.js, Node.js, Express.js, Mongo DB

- Developed an edtech platform facilitating instructors and students to post learning content and study materials.
- Implemented Selenium to create a Chrome instance for interacting with web page elements.
- Enhanced security by integrating OTP and email verification, reducing unauthorized access by 40 percent.
- Designed separate dashboards for instructors to track engagement.

Pulse Student - An Online Voting System For Colleges | JavaScript, React.js, Node.js, Express.js , MongoDB

- Developed “Pulse,” an online grievance and voting management system for colleges and universities, enabling secure student participation and transparent election processes.
- Implemented user authentication and login access with JWT-based role management for students, faculty, and administrators to ensure data privacy and system integrity.
- Integrated real-time video conferencing (WebRTC + React) for virtual grievance hearings and online election interactions within the platform.
- Built a responsive full-stack MERN application (MongoDB, Express.js, React.js, Node.js) using Bootstrap for UI design, providing an intuitive and cross-device user experience.

COURSE WORK

- | | | |
|----------------------------------|-------------------------------|---------------------------|
| • Data Structures and Algorithms | • Object-Oriented Programming | • Operating Systems |
| • Computer Networks | • Database Management Systems | • Artificial Intelligence |

CODING PROFILES

- **LeetCode:** tusharbisane7
- **CodeChef:** tusharbisane7

CERTIFICATIONS / ACHIEVEMENTS

- * Solved 100+ coding problems on platforms including Leet code and Code Chief
- * NPTEL – The Joy of Computing using Python (IIT Ropar, Govt. of India) – Completed 12-week course covering Python programming, problem-solving, and data handling.
- * NPTEL – Introduction to Internet of Things (IoT) (IIT Kharagpur/IIT Madras, Govt. of India) – Learned IoT architecture, embedded systems, sensors, cloud integration, and IoT applications.
