PROJECTS

Chat App

- **Tech Stack:** MERN, Socket.io, TailwindCSS, DaisyUI, Zustand, JWT
- Developed a real-time chat app with live messaging, photo sharing, and online user status. Implemented secure authentication and authorization using JWT.
- Managed global state with Zustand, implemented robust client-server error handling, and built a responsive UI using TailwindCSS and DaisyUI.

Mobile Bookstore App

- **Tech Stack:** React Native, Expo Router, Node.js, Express, MongoDB, Cloudinary, JWT, Render/Railway.
- Built a cross-platform mobile bookstore app allowing users to upload novels, rate, and comment.
- Developed a RESTful API with Node.js, Express, and MongoDB, implementing stateless JWT authentication and efficient infinite scrolling using pagination cursors.
- Handled image uploads via base64 encoding integrated with Cloudinary.
- Deployed the backend for free using Render/Railway.

Product Store App

- **Tech Stack:** PERN (PostgreSQL, Express, React, Node.js), TailwindCSS, DaisyUI, Zustand.
- Built a full-stack product store application with modern UI and smooth UX using TailwindCSS and DaisyUI.
- Implemented rate limiting and bot detection for security, managed global state with Zustand, and ensured robust error handling on both client and server sides.
