

BRIEF SUMMARY

I am a dedicated B. Tech student in Computer Science and Engineering, seeking my first work experience in the IT industry. With a strong academic background and proven skills in software development, I am eager to contribute to organizational growth while gaining practical experience in a professional environment and committed to learning growing and making a valuable contribution to a dynamic team

I am a motivated Full Stack Developer with comprehensive experience in both Python and Java, having completed a six-month Full Stack Development course in Python and currently advancing my expertise through an ongoing Full Stack course in Java. I possess a strong command of front-end technologies, including HTML, CSS, JavaScript alongside proficiency in back-end technologies such as MongoDB, XAMPP and MySQL. My technical skills are further complemented by a solid understanding of Object-Oriented Programming (OOPs), Data Structures and Algorithms (DSA), and PHP. I have successfully completed multiple projects, including a Book Store web application and an IoT-based Greenhouse Monitoring and Control System using Juice SSH. I am eager to apply my skills and contribute to impactful and innovative full-stack development projects.

CODTECH IT SOLUTIONS PRIVATE LIMITED | IT / Computers - Software

30 May, 2025 - 30 Jul, 2025

Intern – Full Stack Web Developer

I completed an 8-week online internship in Full Stack Web Development at CODTECH IT SOLUTIONS PRIVATE LIMITED from May 30, 2025, to July 30, 2025. I worked on web-based projects involving both front-end and back-end development, improving my skills in HTML, CSS, JavaScript, PHP, and MySQL. I gained hands-on experience with responsive design, user interface implementation, and server-side scripting. The internship enhanced my technical abilities, problem-solving skills, and project management experience.
