Objective

Motivated and detail-oriented Data Science enthusiast with a solid foundation in Excel, Power BI, and MySQL, and hands-on experience in data cleaning, ETL, and data visualization. Seeking an entry-level position in Data Analytics to apply analytical skills and contribute to data-driven decision-making.

Education

- B.Ed – Physics & Mathematics, Nagpur University — First Class, 2024
- M.Sc – Mathematics, Nagpur University — First Class, 2022
- B.Sc – Science, Gondwana University — First Class, 2020

Technical Skills

- Concepts & Techniques: Data Cleaning & Transformation (ETL), Data Visualization & Dashboarding, Regression & Statistical Analysis, Predictive Modeling
- MySQL: Data Queries, Joins, Subqueries
- Tableau: Charts, Filters, Parameters, Clustering, Reference Lines, Dashboards
- Power BI: DAX, Interactive Dashboards, Charts, Slicers
- Data Analytics Tools: Excel (Advanced): PivotTables, VLOOKUP, Data Cleaning
- Other Tools: Microsoft Office Suite (Word, PowerPoint, Outlook), Typing Speed: 30–40 WPM (English)

Certifications

- Master's in Data Science & Analytics – In Progress
- Cyber Security Awareness
- Online Net Banking

Projects

Excel Dashboard – Student Mental Health During Online Classes

- Analyzed survey data from over 1000 students on screen time, stress, sleep, and health issues
- Built dynamic Excel dashboard using slicers and DAX
- Reduced data interpretation time by 30%
- Identified 20% of students at high risk for burnout

SQL Project – Student Course Registration System

- Designed and implemented a relational database schema using MySQL with tables: Students, Courses, Instructors, Registrations, and Grades
- Populated tables with realistic sample data (200+ rows)
- Performed complex SQL queries using JOINS, GROUP BY, and subqueries to extract:
 - Number of students per course and instructor
 - Students with pending registrations or no grades
 - Course-wise average grades and pass percentages
- Created views for performance reports and dashboards
- Ensured referential integrity and optimized query performance

Power BI Project – Contoso Sales Interactive Dashboard

- Improved decision-making capability by highlighting high-performing and underperforming segments
- Enabled dynamic drill-through and cross-filtering for detailed business insights
- Visualized KPIs such as Total Sales, Profit Margin, and Sales by Product Category
- Built an interactive Power BI dashboard with filters, slicers, and DAX measures
- Used Contoso Sales dataset to analyze sales performance across regions, products, and time periods

Power BI Project – Sales Analysis and Profit Trends Interactive Dashboard

- Designed and developed an interactive Power BI dashboard to analyze sales performance, profit margins, and customer segments.
- Created KPIs and DAX measures for dynamic reporting, including sales forecasting and profitability analysis.
- Visualized regional trends, product category performance, and discount impact, enabling data-driven decision-making.

Core Strengths

- Strong analytical and quantitative skills
- Effective data storytelling and reporting
- Self-motivated and quick learner
- Comfortable working both independently and in teams
- Fluent in English, Hindi, and Marathi
