Professional Summary

MCA graduate specializing in **Data Science** with expertise in **Python, SQL, Machine Learning, and Data Visualization**. Skilled in data cleaning, statistical modeling, and predictive analytics using Python (Pandas, NumPy, Scikit-learn) and BI tools (Power BI, Tableau). Experienced in developing **AI/ML solutions**, conducting **data-driven research**, and delivering **real-world analytics projects**. Seeking a **Data Scientist / Data Analyst** role to apply analytical and technical skills to drive business decisions and growth.

Technical Skills

Programming: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Flask), R

Databases: MySQL,

Visualization & BI: Power BI, Tableau, Excel (PivotTables, VLOOKUP, Dashboards)

Machine Learning: Regression, Classification, Random Forest, KNN, Decision Trees, CNN, NLP

Statistics & Mathematics: Applied Mathematics, Hypothesis Testing, Probability, ANOVA, Correlation

Data Analytics & Business Rules: Data Cleaning, Data Wrangling, EDA, Predictive Modeling

Tools: Jupyter Notebook, Google Colab, GitHub, VS Code, PyCharm, Streamlit,

Work Experience

Data Analyst Intern – Yadgreen: Smart City Project, Pune, India

June 2025 – Aug 2025

- Analyzed 10K+ traffic sensor records daily using Python and SQL to detect congestion patterns.
 - Built Power BI dashboards, reducing manual reporting time by **40%**.
 - Automated data cleaning scripts using Pandas, improving processing speed by **25%**.
 - Collaborated with engineers to deliver insights that improved infrastructure planning efficiency by **15%**.
 - Supported forecasting models that optimized city resource allocation by **12%**.
-

Projects

Personalized Rice Recommendation System

- Built ML model using Random Forest & KNN to recommend rice types based on dietary needs. • Achieved 65% accuracy with data preprocessing, EDA, and feature engineering.
- Tools: Python, Pandas, Scikit-learn, Power BI, Matplotlib..

Car Sales Analysis Dashboard

- Designed Power BI dashboard with DAX KPIs to analyze regional and model-wise car sales performance.
- Delivered insights that supported data-driven decision-making.

Diamond Price Predictor

- Built ML models (Linear Regression, Decision Tree) with high predictive accuracy.
 - Deployed an interactive **Flask web app** for user-friendly price prediction.
-

Certifications

- **Master in Data Science & Analytics with Artificial Intelligence** – IT Vedant (Aug 2025)
 - **IBM: Machine Learning with Python** (Jun 2025) – Focused on supervised learning and evaluation metrics.
 - **IBM: Data Analysis with Python** (May 2025) – Hands-on with data wrangling and visualization.
 - **IBM: Python for Data Science** (May 2025)
-

Education

Master of Computer Applications (MCA) – Prof. Ramkrishna More College, SPPU

Aug 2023 – May 2025 / Marks: 80%

Coursework: Data Mining, Artificial Intelligence, Database Management Systems, Big Data Analytics

Soft Skills

Analytical Thinking | Creative Problem Solving | Communication Skills | Attention to Detail | Collaboration | Tech Savvy
