Summary

Driven Mechanical Engineering undergraduate skilled in 3D CAD modeling, embedded systems programming, and full-stack web development. Strong foundation in solid modeling, sensor integration, and frontend frameworks, complemented by proficiency in microcontroller coding and data structures. Seeking opportunities to leverage diverse technical abilities and collaborate on impactful engineering solutions.

Education

Army Institute of Technology, Pune <i>B.E., Mechanical Engineering</i>	2023–Present 7.4 GPA
National Children Higher Secondary School, Gwalior (M.P) <i>Senior Secondary (12th, CBSE)</i>	2020–2021 71%
Army Public School, Gwalior (M.P) <i>Secondary (10th, CBSE)</i>	2018–2019 75%

Skills

- **Core Mechanical Skills:** SolidWorks, AutoCAD, 3D Modeling, Product Design
- **Software Tools:** React.js, Node.js, HTML5/CSS3, Git, SQL
- **Programming Languages:** Java, JavaScript, C, SQL
- **Embedded Systems:** Arduino, Sensor Integration, Microcontroller Programming
- **Soft Skills:** Communication, Teamwork, Critical Thinking, Time Management

Projects

Leave Management System Web App	2024
• Developed full-stack web application using React.js and Node.js with SQL backend to manage student leave requests. • Implemented RESTful APIs and responsive UI for efficient data handling and user experience.	
Automatic Braking System	2024
• Engineered Arduino-based prototype utilizing ultrasonic sensors for real-time obstacle detection and automated braking. • Optimized C-based signal processing algorithms for sub-50ms reaction times.	
Netflix & HackerRank Landing Page Clones	2023
• Built pixel-perfect replicas of landing pages using semantic HTML and responsive CSS. • Ensured mobile-first design and cross-browser compatibility.	

Positions of Responsibility

- Joint Secretary, SAE Collegiate Club (Jul 2024–Present): Organized technical events and managed club communications.
- PR Head & Content Writer, Magazine Board (Jun 2023–Jul 2024): Led PR campaigns and authored 15+ articles for college magazine *SRIJNA*.
- Hackathon Lead, Solvex (Annual Fest 2024–25): Directed planning and execution of a 24-hour intercollege coding competition.
- Content Head, Technical Board & SAE Club (Aug 2024–Jun 2025): Oversaw all technical documentation and publications.

Achievements

- Spearheaded the Solvex hackathon, achieving 30% higher participation year-over-year.
- Implemented Automatic Braking prototype showcased in live demo at college fest.
- Recognized for excellence in content strategy and publication quality for student organizations.
- Contributed to significant attendance growth (25%) at flagship technical events via targeted PR.
