Professional Summary

I'm an aspiring **Financial Analyst** with foundation in **financial analytics, FP&A, budgeting, forecasting, variance analysis**, and **data visualization**. Skilled in **SQL, Python, Excel, Power BI, Tableau** for delivering insights in **revenue forecasting, pricing, cost optimization**, and dashboards. Base in **financial modeling, valuation (DCF, NPV, IRR)**, and **risk assessment**, supported by academic projects and coursework.

Core Competencies

Financial Analysis: Financial Modeling, Budgeting, Forecasting, Variance Analysis, Cost Analysis, Risk Assessment, Investment Analysis, DCF Analysis, Financial Reporting, KPI Development	Tableau, Power BI, SAP, Oracle, Bloomberg Terminal, VBA, Pivot Tables, Database Management, Statistical Modeling
Technical Skills: Advanced Excel, SQL, Python, R,	Analytics: Regression Analysis, Time Series Analysis, Monte Carlo Simulation, Predictive Analytics, Data Mining, Machine Learning, Sensitivity Analysis, Scenario Planning

Education

Indian Institute of Information Technology, Lucknow (IIIT Lucknow) <i>MSc in Economics and Management</i>	Expected Aug 2026
---	-------------------

- Expected Coursework: Mathematical Economics, Econometrics, Corporate Finance (DCF, CAPM), Business Analytics (Excel, SQL, R), Operations Management, Professional Communication

WorldQuant University (WQU) <i>MSc in Financial Engineering</i>	Expected Mar 2027
---	-------------------

- Expected Coursework: Financial Markets, Financial Econometrics, Derivative Pricing, Stochastic Modeling, Machine Learning in Finance, Deep Learning for Finance, Portfolio Management, Risk Management

Academic & Personal Projects

Revenue Forecasting Model

Developed a time-series forecasting model using **Python (pandas, statsmodels)** to predict quarterly revenues with 92% accuracy.

Risk Analysis Dashboard

Created an interactive **Power BI dashboard** analyzing loan portfolio risk, with filters for credit score, default probability, and interest rates.

Financial Modeling – Investment Valuation

Built Excel-based models (DCF, NPV, IRR) for evaluating investment projects and prepared scenario/sensitivity analysis reports.

Technical Skills

Analytics & Programming: SQL, Python (pandas, numpy, matplotlib), R

BI/Visualization: Power BI, Tableau, Excel (Pivot Tables, Power Query, VBA)

Finance: Financial Modeling, Forecasting, Budgeting, Variance Analysis, Valuation (DCF, NPV, IRR)

Reporting: MIS, KPI Dashboards, Data Cleaning & Transformation

Certifications

- CFA Institute Investment Foundations (Expected 2025)
- Financial Modeling & Valuation (Udemy)
- SQL for Data Analytics and Python for finance (Udemy)
- Financial Analyst and Time series Analysis and also Credit Risk Modeling in python (Udemy)
