Pune

SUMMARY

Proficient in **Python, SQL, Excel, and Power BI**, with practical experience in analyzing and visualizing data to drive business insights. Passionate about solving complex problems through data-driven solutions, continuously learning and eager to contribute to data-driven decision-making.

EDUCATION

Sant Dnyaneshwar Mahavidyalaya

Bachelor Of Computer Science (BCS)

PROGRAMMING LANGUAGES

- Python
- SQL

TECHINICAL SKILLS

- Data Visualization
- Data Cleaning
- Data Preprocessing

SOFT SKILLS

- Critical Thinking
- Problem Solving
- Communication

CERTIFICATIONS

- Master in Data Science With AI
- Python
- SQL
- Excel
- Power Bi

PROJECTS

Library Management System (SQL) [Link](#)

- Designed and implemented relational database tables like Author, Members, Books, Borrowed Books.
- **Primary Key, Foreign Key** and **Default Key** are used for to specify rules for the data in a table.
- Some insight like most popular author based on the number of books borrowed and total number of books borrowed by each member

Finance Data Insights ROI & Fee (Excel) [Link](#)

- Used **Drop down list** for to let user select value form Predefined list.
- Used functions like **SUMIF, SUMIFS, MAX, VLOOKUP, IFERROR, AVERAGEIFS** for deeper Insights.
- Used **Pivot Table** and **Pivot Charts** for Visualize Data Insights.
- Used **Slicers** to Filter Data quickly and Interactively mainly used for Pivot Table and Pivot Charts

Student Spending Analysis (Power BI) [Link](#)

- Performed **Data Transformation**.
- Used **Tooltips, Drill Through, Bookmark, Slicers, Hierarchy, Cards** and other visuals for deeper Insights.
- Used **DAX** functions like **calculate, Divide, countrows, allexcept, Average, Sum** for deeper Insights.
- Insight like **Top N** and **Bottom N** Category.
