SUMMARY

B.Sc. Computer Science student with hands-on experience in data analysis, visualization, and SQL. Skilled in creating Power BI dashboards and SQL queries to extract actionable business insights. Passionate about leveraging data to drive decision-making in dynamic environments.

PROJECTS

Movie Ticket Booking System

Tools: MySQL, SQL

Built a relational database with entities like Users, Movies, Shows, Bookings, Payments. Wrote SQL queries using joins, subqueries, and window functions to generate real-time analytics, reducing manual reporting time by 30%.

Healthcare Dashboard

Tools: Power BI

Created an interactive Power BI dashboard for patient and appointment analysis, revealing KPIs like patient wait times and appointment trends. The dashboard reduced data retrieval time by 40% for healthcare staff, enabling faster decision-making.

EDUCATION

B.Sc. Computer Science

Haribai V. Desai College, Savitribai Phule Pune University

June 22-April 2026

Technical Skills:

- Data Tools: Power BI (DAX modeling), MySQL, SQL Server, Tableau
- Analysis: Data visualization, ETL processes, statistical analysis
- Soft Skills: Collaborative problem-solving, cross-functional communication, detail-oriented reporting

CERTIFICATIONS

- Advanced Excel – (June 2025): Mastered pivot tables, VLOOKUP, and data modeling for efficient data analysis.
- SQL Mastery – (July 2025): Developed complex queries for data extraction and reporting, directly applicable to business intelligence workflows
- Power BI Essentials – July 2025: Applied DAX modeling to create the Healthcare Dashboard, reducing data retrieval time by 40%
