

VISHRUTH V

[LinkedIn](#) | Ph no: +91 9731402727 | vvishruth20@gmail.com

SKILLS

- Programming language: Python, C++
- Mathematical and statistical tools: Microsoft Excel, Power BI, SQL
- Development Tools: Git, GitHub, VS Code
- AI/ML & Data Science: NumPy, Pandas, TensorFlow (basics), anomaly detection

EDUCATION

National Institute of Engineering

Bachelor of Engineering

Major in Electronics and Communication Engineering

Expected Aug 2026

UNIVERSITY PROJECTS

Iot Sensor Data Anomaly Detection (AI + IoT)

Dec 2024

- Simulated Iot sensor dataset (temperature, humidity) and applied ML (Isolation Forest) for anomaly detection. Visualized anomalies using Python, Pandas and Matplotlib to demonstrate predictive maintenance use cases.

Sales Dashboard Using Power BI

Mar 2024

- Implemented DAX measures to calculate year-over-year growth, enabling real-time insights into sales trends
- Implemented end-to-end report generation, which helped me generate actionable insights.

ACTIVITIES

AJITHA NELE

Aug 2023

- Taught English to over 50 underprivileged children, focusing on foundational language skills and fostering academic growth in a challenging environment; also incorporated basic technical concepts to enhance overall learning.
- Co-ordinated with the community for development, positively impacting 50+ students over two years.
- mentored junior volunteers in lesson planning and classroom management, cultivating a sustainable teaching ecosystem and ensuring continuity of learning for future batches.

EXPERIENCE

Bharat Electronics Limited (Bengaluru)

Jun 2025

Project Intern

- Interacted with engineers and project leads to understand real-world applications of embedded systems, signal processing, and hardware-software interfacing
- Got hands-on exposure across different departments like Radar Systems, Communications, and Missile Systems by visiting multiple business units and observing how projects move from start to finish.

ADDITIONAL

Languages: Fluent in English ,Hindi ,Kannada

Certifications & Training: Introduction to Python Programming(Coursera), Professional Skills For Workspace(Coursera)
